PREFACE

WORKS registered for copyright in Class A, Books, are divided between Parts 1A and 1B of the *Catalog*, with the exception of greeting cards, which are listed in Parts 7–11A.

Part 1A contains domestic and foreign books and pamphlets which have been selected for the general collections of the Library of Congress. They constitute, in general, the current output of the book publishing industry of the United States and the works of foreign origin of present or potential interest to the American book trade. Part 1A includes trade books (novels, poetry, biographies, travel books, children's books, etc.), scientific and technical books, reference books, dissertations and monographs of scholarly importance, books issued by university presses and other similar single works.

Part 1B lists all other works registered for copyright in Class A, and includes a wide variety of printed materials, predominantly of serial or pamphlet nature. This list contains yearbooks; directories; commercial, industrial, and legal services in looseleaf or pamphlet form; instruction books, manuals, and tests; and materials of unusual physical form which bear published statements constituting the material being copyrighted. It also contains entries for contributions to periodicals of a literary nature registered in Class B under the symbol B5.

Works listed in this issue were registered in the Copyright Office from January 1, 1949, through June 30, 1949. Renewal registrations made in these classes are listed in Part 14A.

Arrangement.—The main section consists of an alphabetical arrangement of complete entries under main headings (author, editor, or title) and of brief entries in the form of cross-references from joint authors, editors, etc. Following the main section is an index to titles.

Entry.—Under main heading each entry includes, as applicable, the title, any joint authors up to three in number, illustrators, editors, compilers, and translators, and any edition information present in the work. Imprint information, consisting of place of publication and name of publisher as given on the title page, follows except in cases when the publisher is also the copyright claimant. In these cases the name of the publisher appears only in the statement of the facts of copyright registration. Imprint date as given on the title page follows next only when it differs from the year date of publication furnished in the copyright application. Certain physical characteristics of each work will be found in the statement of the number of volumes or numbered pages and the use of the abbreviation "illus." for illustrative matter not otherwise indicated. If the work belongs to a series, this fact is also noted. Each added entry cross-reference consists of the name of the joint author, illustrator, editor, compiler or translator and the title of the main work, followed by reference to the heading under which the complete entry will be found.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the name of the copyright claimant, the chief place of publication given on the title page (when the claimant and publisher are the same), the date of publication as given in the copyright application, a brief statement of the matter on which copyright is claimed (if claim is based on new matter) and the registration number. For ad interim works, the date the work was deposited in the Copyright Office is given, preceded by the abbreviation "1c," in addition to the date of publication.

In the case of United States editions for which ad interim registration was previously made the registration number is followed by a statement of the previous (ad interim) registration when available.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by Title 17, U. S. C., secs. 13 or 215 has been made. Foreign works for which two copies have been deposited under sec. 215, are distinguished by a registration number, the first digit of which is a zero.

Authority.—The *Catalog of Copyright Entries* is published by authority of Title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 3 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should henceforward be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as subscriptions to continue until further notice, or (2) as orders for individual issues. All orders should state clearly the title and inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either in advance (accompanying the order) or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* for one year may be secured on a subscription basis for $20.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1951, any article of the following named classes of published works deposited for copyright between January 1, 1947, and January 1, 1948, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are not included in this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

PREFACE

WORKS registered for copyright in Class A, Books, are divided between Parts 1A and 1B of the *Catalog*, with the exception of greeting cards, which are listed in Parts 7–11A.

Part 1A contains domestic and foreign books and pamphlets which have been selected for the general collections of the Library of Congress. They constitute, in general, the current output of the book publishing industry of the United States and the works of foreign origin of present or potential interest to the American book trade. Part 1A includes trade books (novels, poetry, biographies, travel books, children's books, etc.), scientific and technical books, reference books, dissertations and monographs of scholarly importance, books issued by university presses and other similar single works.

Part 1B lists all other works registered for copyright in Class A, and includes a wide variety of printed materials, predominantly of serial or pamphlet nature. This list contains yearbooks; directories; commercial, industrial, and legal services in looseleaf or pamphlet form; instruction books, manuals, and tests; and materials of unusual physical form which bear published statements constituting the material being copyrighted. It also contains entries for contributions to periodicals of a literary nature registered in Class B under the symbol B5.

Works listed in this issue were registered in the Copyright Office from July 1, 1949, through December 31, 1949. Renewal registrations made in these classes are listed in Part 14A.

Arrangement.—The main section consists of an alphabetical arrangement of complete entries under main headings (author, editor, or title) and of brief entries in the form of cross-references from joint authors, editors, etc. Following the main section is an index to titles.

Entry.—Under main heading each entry includes, as applicable, the title, any joint authors up to three in number, illustrators, editors, compilers, and translators, and any edition information present in the work. Imprint information, consisting of place of publication and name of publisher as given on the title page, follows except in cases when the publisher is also the copyright claimant. In these cases the name of the publisher appears only in the statement of the facts of copyright registration. Imprint date as given on the title page follows next only when it differs from the year date of publication furnished in the copyright application. Certain physical characteristics of each work will be found in the statement of the number of volumes or numbered pages and the use of the abbreviation "illus." for illustrative matter not otherwise indicated. If the work belongs to a series, this fact is also noted. Each added entry cross-reference consists of the name of the joint author, illustrator, editor, compiler or translator and the title of the main work, followed by reference to the heading under which the complete entry will be found.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the name of the copyright claimant, the chief place of publication given on the title page (when the claimant and publisher are the same), the date of publication as given in the copyright application, a brief statement of the matter on which copyright is claimed (if claim is based on new matter) and the registration number. For ad interim works, the date the work was deposited in the Copyright Office is given, preceded by the abbreviation "1c," in addition to the date of publication.

In the case of United States editions for which ad interim registration was previously made the registration number is followed by a statement of the previous (ad interim) registration when available.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by Title 17, U. S. C., secs. 13 or 215 has been made. Foreign works for which two copies have been deposited under sec. 215, are distinguished by a registration number, the first digit of which is a zero.

Authority.—The *Catalog of Copyright Entries* is published by authority of Title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 3 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should henceforward be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as subscriptions to continue until further notice, or (2) as orders for individual issues. All orders should state clearly the title and inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either in advance (accompanying the order) or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* for one year may be secured on a subscription basis for $20.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
